

CAUSEWAY SHUTTLE
 380 MOSS LANE
 MANDEVILLE, LA. 70471
 985-626-9481

Date: _____ Drivers for van # _____

Motor Vehicle Reports (MVRs) must be obtained as part of Causeway Shuttle’s evaluation of applicants who serve as regular or as a back-up driver on vans operated by Causeway Shuttle.

The reports may be procured by Gillis, Ellis, and Baker, Inc., and may include your driving record and an assessment of your insurability under Causeway Shuttle’s insurance coverage. By signing this disclosure, you hereby authorize Causeway Shuttle, LLC to procure such motor vehicle reports and additional reports from time to time, as it deems appropriate, to evaluate your insurability.

There are two important federal privacy protection laws that impact the obtaining and the use of any individual’s MVR information. They are the Fair Credit Reporting Act (FCRA) and the Driver’s Privacy Protection Act (DPPA).

- The **Fair Credit Reporting Act** regulates “consumer reporting agencies” and the way they gather and sell this information. This includes obtaining and using MVRs.
- The **Driver’s Privacy Protection Act** restricts the use of an individual’s driving history information. Some individual states, or state Departments of Motor Vehicles, have implemented policies and procedures that are even more stringent than what is required federally.

Both the FCRA and the DPPA allow exceptions that enable use of MVRs for underwriting purposes. However, there are limitations on what can be done with the specific detailed information (infractions, citations, suspensions, etc.) obtained for underwriting purposes.

As part of the insuring companies underwriting criteria, they will need to have a current list of drivers along with their driver’s license number and date of birth. In order for us to release any data, we must have fully executed authorizations on file. Every individual driver needs to have their MVR on file if they will be driving a Causeway Shuttle vehicle.
